Take control of your overdue notifications!

starting at

Up and running in days, not months.

100% Cloud -- Zero Hardware. Zero Installation.

\$500 / mo.

OVERVIEW

Notify+ Dunning sends HTML email notifications for overdue invoices. Define each dunning level by days overdue. Keep your company branding intact with formatted text and images. Include tables and PDF copies too! Automatically apply late fees or cancel subscriptions for the most delinquent accounts!

USE CASES

- HTML emails instead of plain text
- Send overdue notices more than once a month
- Send emails from @yourcompany.com
- Target specific customers

WHAT IS INCLUDED?

- Assessment, setup, configuration, customization, training and support
- Access to c2c-Tools console for job configuration, execution and monitoring

WHAT IS NOT INCLUDED?

- SMTP Server for sending emails. A 3rd party service email service, such as Mandrill, can be used instead.
- Multiple language translations of the dunning notices

To sign up or schedule a demo, call
