

GLOBAL PRACTICE MANAGEMENT SOLUTION

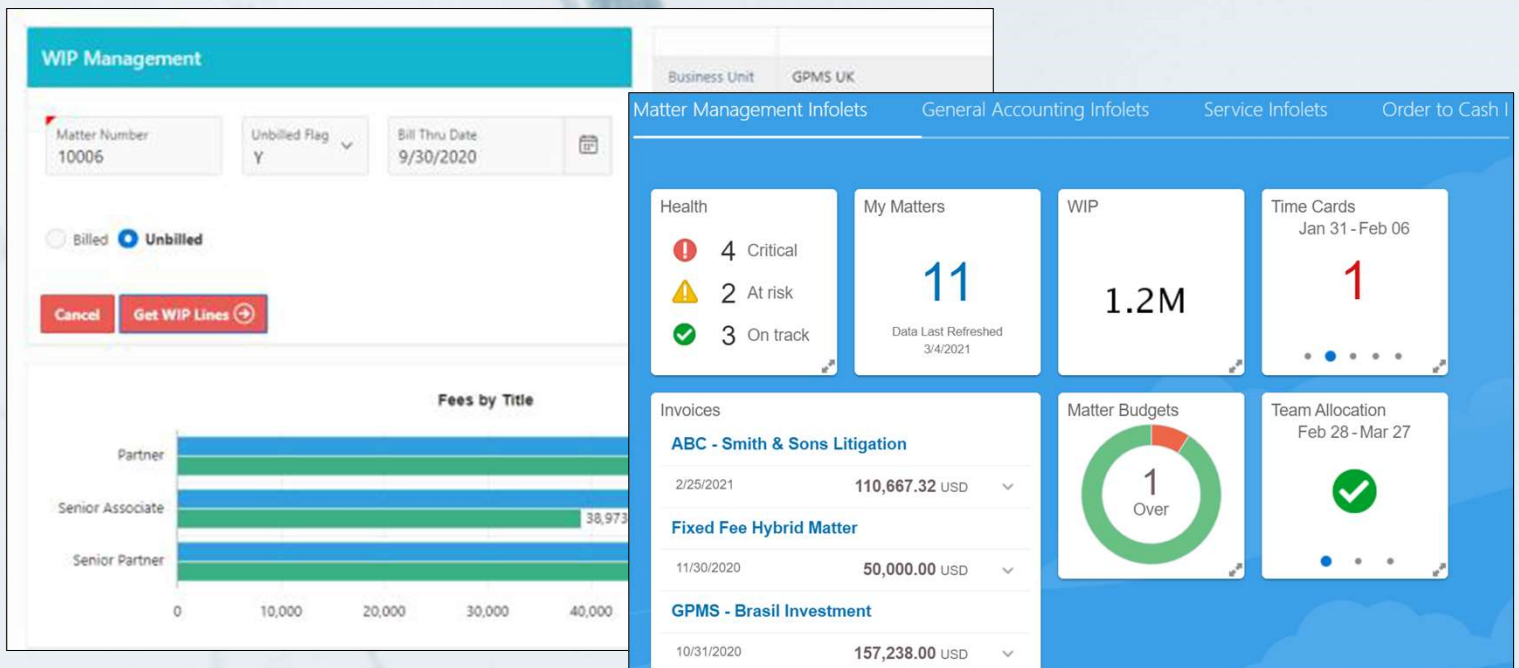

Oracle is the global leader in ERP and EPM solutions. Oracle's Cloud 2.0 platform is used by more than 7,000 customers in 125 countries.

Frontera brings industry expertise to Oracle Cloud applications to deliver the leading global solution for the specific needs of legal and professional services firms.

Modernize your back-office, reduce risk and become a truly digital firm with Global Practice Management Solution (GPMS).

KEY BENEFITS

- **Out-of-the-box legal industry best practices**
- **Flexible WIP and matter management**
- **Complex billing including alternative fee arrangements**
- **Real-time dashboards for WIP and billing across multiple devices**
- **Dramatically reduced admin time**

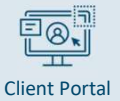

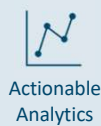

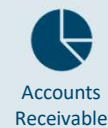

With GPMS, Frontera brings decades of experience with professional service firms and combines it with Oracle's Gartner-leading applications for budgeting and planning, finance and billing, and HCM.

Whether you choose a single enterprise application as a cornerstone of your digital transformation or you go with best-of-breed approach, Frontera can help you extend the business capabilities of your investment by leveraging a proven solution on Oracle's unified platform.

With purpose-built features such as WIP Billing, AFAs, and Matter Management, all supported on a secure Cloud 2.0 platform, Oracle GPMS can transform your firm into a global digital practice.
